

Scenario: As an admin user I wish to log into Digital Marketplace, search for a service and be able to edit details for that service

Given I am on the 'Administrator' login page
When I login as a 'Administrator' user
Then I am presented with the 'Find a service' page
When I enter '5126395806089216' in the 'Service ID' field
And I click the 'Find service' button
Then I am presented with the summary page for that service

Scenario: As an admin user I wish to edit the description of a service
Given I click the 'Edit' link for 'Description'

Then I am presented with the 'edit' 'Description' page for that service
When I change 'serviceName-text-box' to 'Service name changed'
And I change 'serviceSummary-text-box' to 'Service summary changed'
And I click the 'Save and return to summary' button
Then I am presented with the summary page with the changes that were made to the 'Description'

Scenario: As an admin user I wish to edit the features and benefits of a service

Given I click the 'Edit' link for 'Features and benefits'
Then I am presented with the 'edit' 'Features and benefits' page for that service
When I change 'serviceFeatures' to 'Service feature changed'
And I click the 'Save and return to summary' button
Then I am presented with the summary page with the changes that were made to the 'Feature and benefits'

Scenario: As an admin user I wish to edit the pricing of a service

Given I click the 'Edit' link for 'Pricing'
Then I am presented with the 'edit' 'Pricing' page for that service
When I change 'priceMin' to '100'
And I change 'priceMax' to '1234'
And I change 'priceUnit' to 'Unit'
And I change 'priceInterval' to 'Hour'
And I click the 'Save and return to summary' button
Then I am presented with the summary page with the changes that were made to the 'Pricing'

Scenario: As an admin user I wish to change a document of a service

Given I click the 'Edit' link for 'Documents'
Then I am presented with the 'edit' 'Documents' page for that service
When I change 'pricingDocumentURL' file to '12345-test-new-pricing-document.pdf'
And I click the 'Save and return to summary' button
Then I am presented with the summary page with the changes that were made to the 'Documents'

Scenario: Admin user should be able to abort an edit and be returned to the service summary page

Given I am on the '/edit/description' page
When I click the 'Return without saving' link
Then I am presented with the summary page with no changes made to the 'Description'

Scenario: Admin user is able to view service details page for a service

When I click the 'View service' link

Then I am presented with the service details page for that service
